LONGING FOR LAGUNA

Laguna Beach seduces....

A true California beauty, Laguna Beach will beguile you with her golden good looks and her effervescent charm.

Spend some time in Laguna Beach, and you will want to explore the historic downtown, delighting in the treasures to be found in the many shops, galleries and globally-influenced dining establishments.

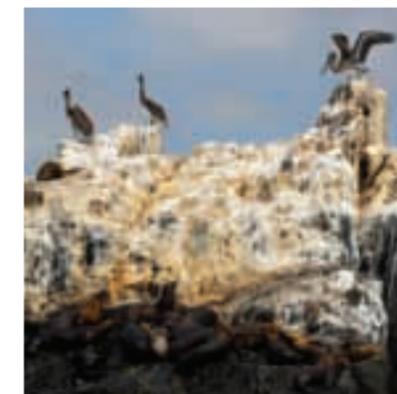

Watch as a glass-blower completes a vase. Treat yourself to a scoop (or two!) of gelato. Talk with the artist about the gorgeous watercolor you've just chosen. Strap on a new pair of sandals that complement the hat you "just had to have" from the shop next door. Have your first taste of beautifully seasoned peri-peri prawns. Then round out your marvelous day with one of the many arts and music festivals held in Laguna Beach throughout the year.

You say you much prefer the great outdoors? Then grab a surfboard, some snorkeling gear, or hop on a kayak and experience the area from the sea.

Or do absolutely nothing at all, and just sit back and take in the breathtaking beauty of the landscape.

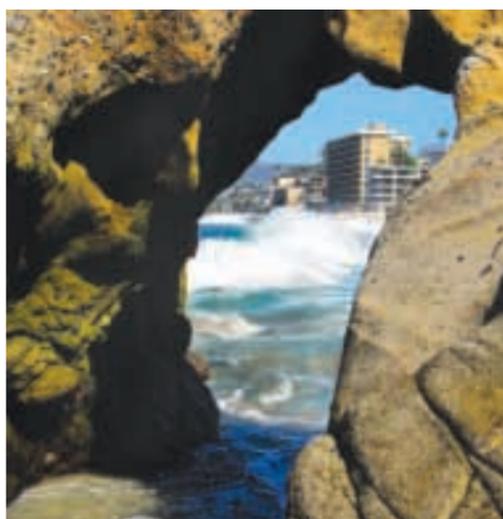

That's the thing about Laguna Beach — you can't help but be seduced.

SURF AND SAND

SEASIDESENSATION

Escape to the **Surf and Sand Resort**, an oasis in Laguna Beach where you will be able to recharge your batteries and emerge light-hearted and refreshed.

Many of the accommodations in Laguna Beach are located closer to the beach and ocean than anywhere else in California, and the Surf and Sand Resort is no exception.

Each of the resort's gorgeous guest rooms and suites overlooks the ocean and has its own furnished private balcony with both sliding and shuttered doors. You will feel your worries drifting away as you take in the spectacular views and listen to the rhythmic sound of the rolling waves.

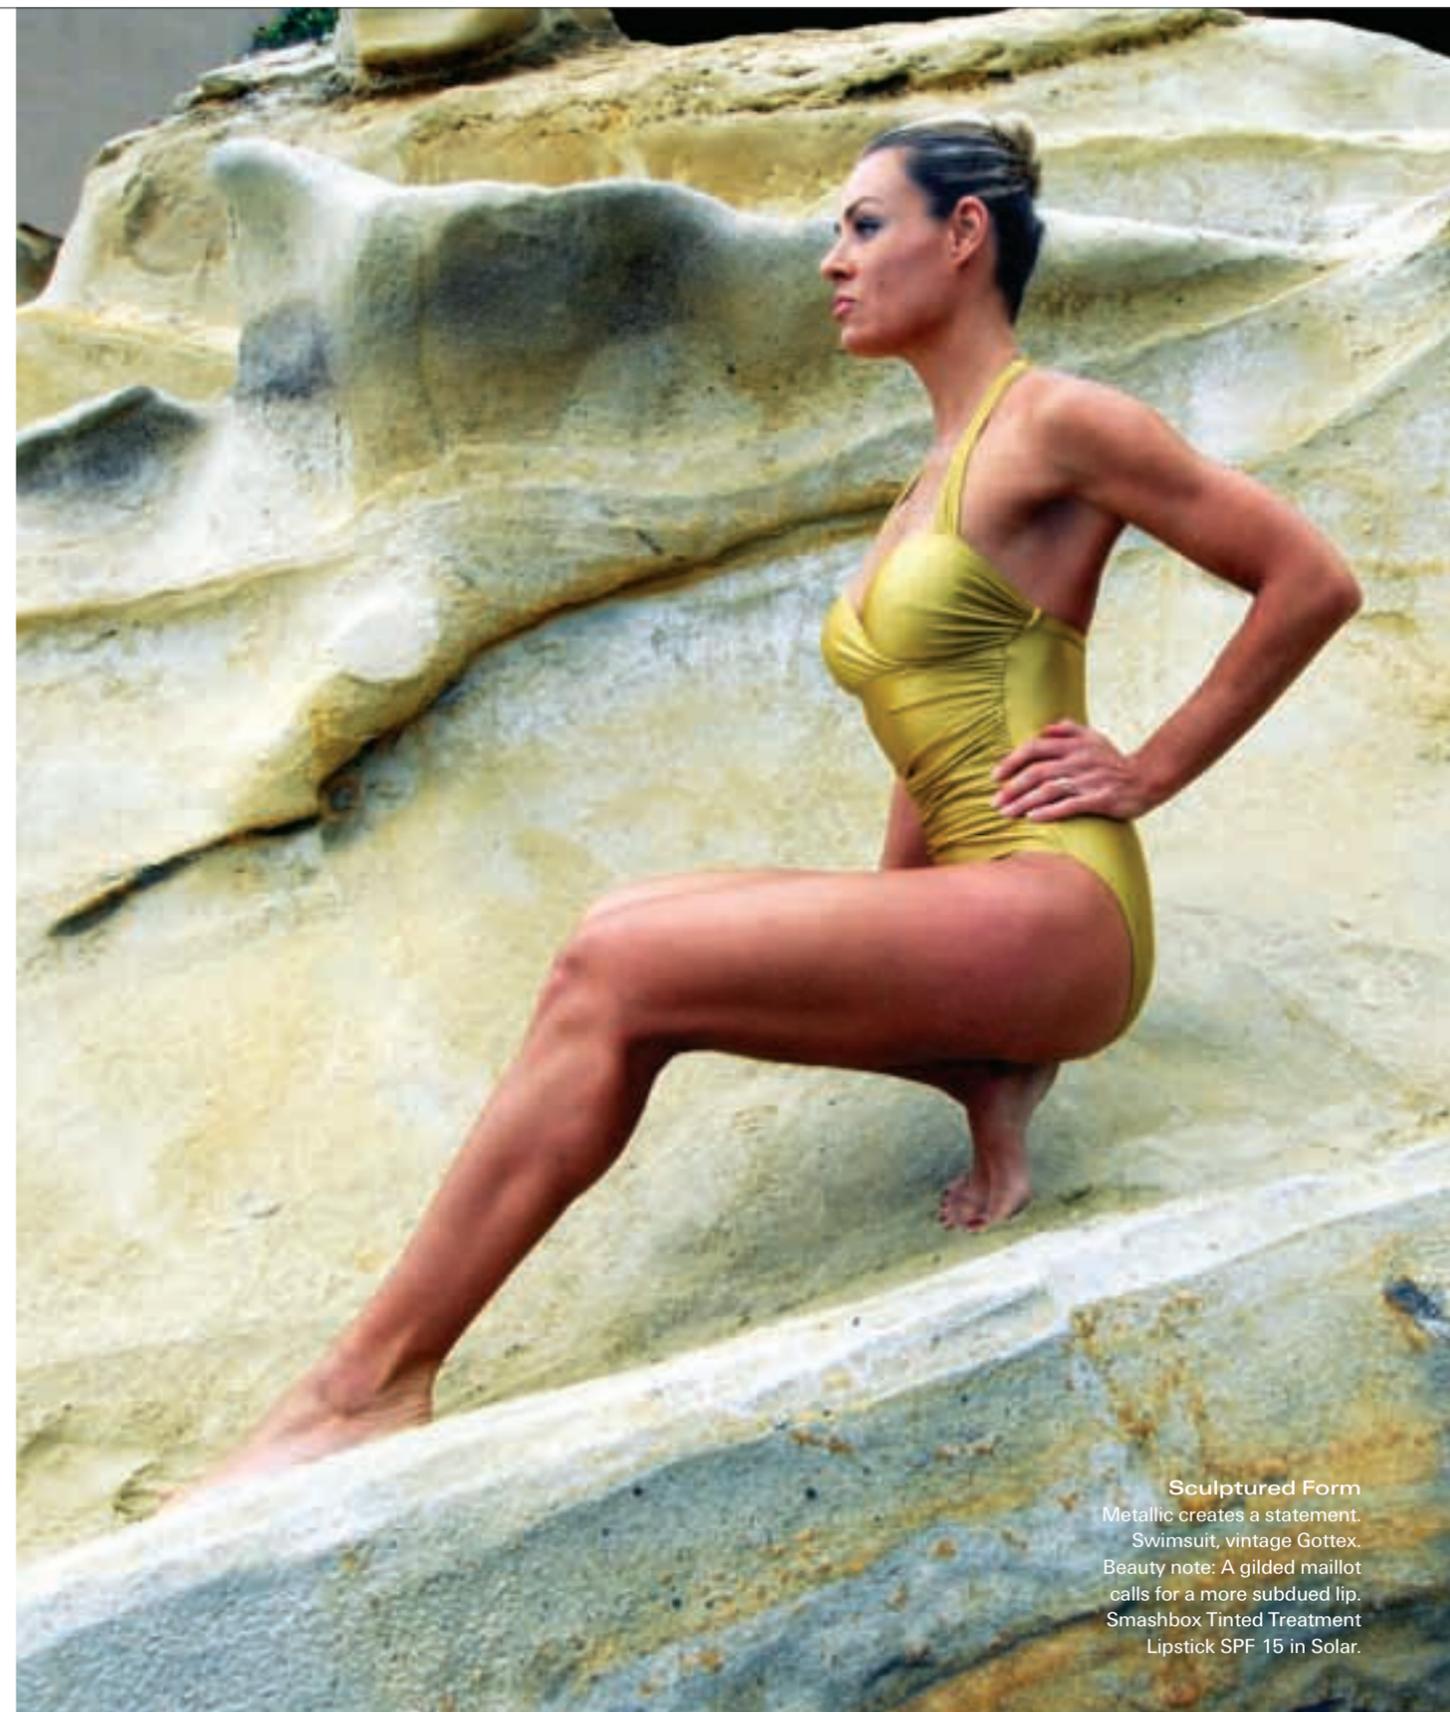

Soft, soothing nature-inspired hues, sumptuous linens, Aveda toiletries, plush terrycloth robes, private mini-bar, internet access, flat-screen television and in-room movies will keep you comfortable and relaxed throughout your stay.

And although you will find the atmosphere to be very tranquil here, you will soon realize it is undeniably romantic too. Why not take advantage of your sensual surroundings and stay in for the night? Consider some champagne on your balcony or a candlelit bath for two; you just might fall in love all over again.

Heighten the feeling of romance by indulging in one of the "Couples Rituals" at the resort's **Aquaterra Spa**. You both will enjoy the wonderfully luxurious and intimate experience of being spoiled together. A full menu of services including massages, facials, body wraps, nail care and yoga is also available should further pampering be desired.

Great meals have been known to ignite passion, and the Surf and Sand Resort's critically acclaimed restaurant does just the trick. **Splashes** specialty is California cuisine influenced by the flavors of Asia and the Mediterranean. Savor succulent dishes, top-notch wines and decadent desserts at your table for two on the outdoor terrace or in the modern dining room. Finish your evening with a hand-in-hand stroll along the beach. You won't be at all surprised when the two of you are mistaken for honeymooners.
