

BLUE SKIES, WHITE SAND, PINK DRINKS

Key Largo, Florida

The Marriott Key Largo Bay Resort is surprisingly more than you might expect it to be — beautiful architecture, friendly faces and luxury amenities, second to none. Of course, there's the beach and warm tropical water. Lounging around in the sun might send you to the resort's five-star spa for some comprehensive skin treatments or encourage you to recharge at Gus' Grille, where fresh Floridian delicacies are served. Dine with an ocean view, from the restaurant or from your room.

Of course, Key Largo is an epicenter of great outdoor activities. There's the Keysgate's Championship 18-hole golf course, just a short drive from the resort. The Marriott also features a full PADI scuba training facility to teach you how to dive. Boats depart from the resort daily for divers and snorkelers to visit the nearby marine sanctuary. If you're predisposed toward spending some quality time on the surface, you can still tackle the ocean via the resort's waverunners, parasailing, aqua cycles, kayaks, boat rentals, deep-sea and backcountry sport fishing, private charters and sunset cruises. There's probably nothing you'll want that isn't at the Marriott Key Largo. Complete information is available at MarriottKeyLargo.com or toll-free at 866.849.3753. Arrivals: Miami International Airport (MIA).
