

IT'S BIG IN TEXAS

Dallas, Texas

Unless you are a pipe organ aficionado, you might even have trouble imagining what a 4,535 pipe C.B. Fisk Opus 100 pipe organ sounds like. Or what it sounds like in a brilliant concert hall designed by none other than I. M. Pei. Thankfully you don't have to use too much imagination, just your airplane, to fly and visit the Meyerson Symphony Center in Dallas.

The facility is home to more than 180 music events each year, and once a month, a free half hour demonstration of the organ's abilities is presented. Many listeners come away from the mini-concerts saying they've just had the most amazing musical experience of their lives.

Check with the venue for exact times of the organ demonstrations at MeyersonSymphonyCenter.com or by calling 214.670.3600. Airport: Love Field (DAL).
